

1. What research tells us and what agencies know

What do we know and not know?

- The level of CSA self-reported in surveys is far higher than the level recorded by agencies
- How much the rate of disclosure of CSA has changed over time is unknown
- Agency data cannot be compared properly because the police record offences and children's services record children
- We do not know how the online context is affecting the scale of CSA/E

3,090 children on child protection plans for sexual abuse in England and Wales in 2015/16

Source: Department of Education Children in Need census 2015/16 and Welsh Government Children in Need census 2015/16

28,600 children assessed at risk of CSA by children's services in England in 2015/16

Source: Department for Education Children in Need census 2015/16

53,811 CSA offences recorded by police in England and Wales in 2015/16

Source: Police recorded crime and outcomes open data tables, updated 27 April 2017

785,000 children aged 11-17 experienced *any* type of sexual abuse during their childhood;
228,000 experienced *contact* sexual abuse in their childhood (2009)

Source: Radford et al 2011, Childhood abuse and neglect in the UK today. Figures calculated using reported rates of victimisation and extrapolated using ONS mid-2009 population figures.

2. Three surveys: questions and scope influence rates of reported CSA

CSA before the age of 16, by adults

10.5%

2.6%

had
experienced
any form of
sexual abuse

3.4%

0.6%

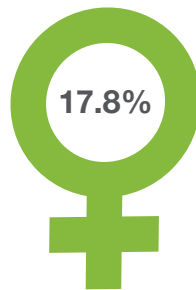

had
experienced
penetrative
offences
(including
attempts)

Sample:

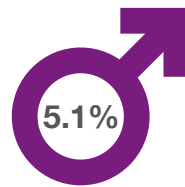

20,582 adults aged 16-59

Source: Crime Survey for England and Wales, 2016 (three questions)

CSA before the age of 18, by adults and peers

17.8%

5.1%

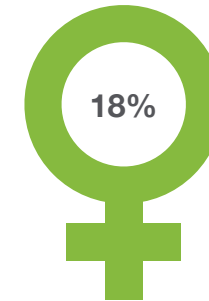

had
experienced
contact
sexual abuse

Sample:

1,761 young people aged 18-24

Source: NSPCC child maltreatment study (six questions), reported in Radford et al. (2011) *Childhood abuse and neglect in the UK today*

CSA before the age of 15, by adults

18%

had
experienced
any form of
sexual abuse

Sample:

1,500 women aged 18-74

(part of a sample of 42,000 female citizens of the EU)

Source: European Agency for Fundamental Rights violence against women survey, 2014 (five questions)

What do we not know?

- What is the scale of CSA in 2017?
- Tracking changes over time – is there more or less CSA than there used to be?
- How much of CSA is CSE?
- How does the online context affect overall abuse rates?
- What proportion of the population have committed CSA/E, or considered doing so?

3. Different levels of CSA recorded by police and children's services

Police forces count offences

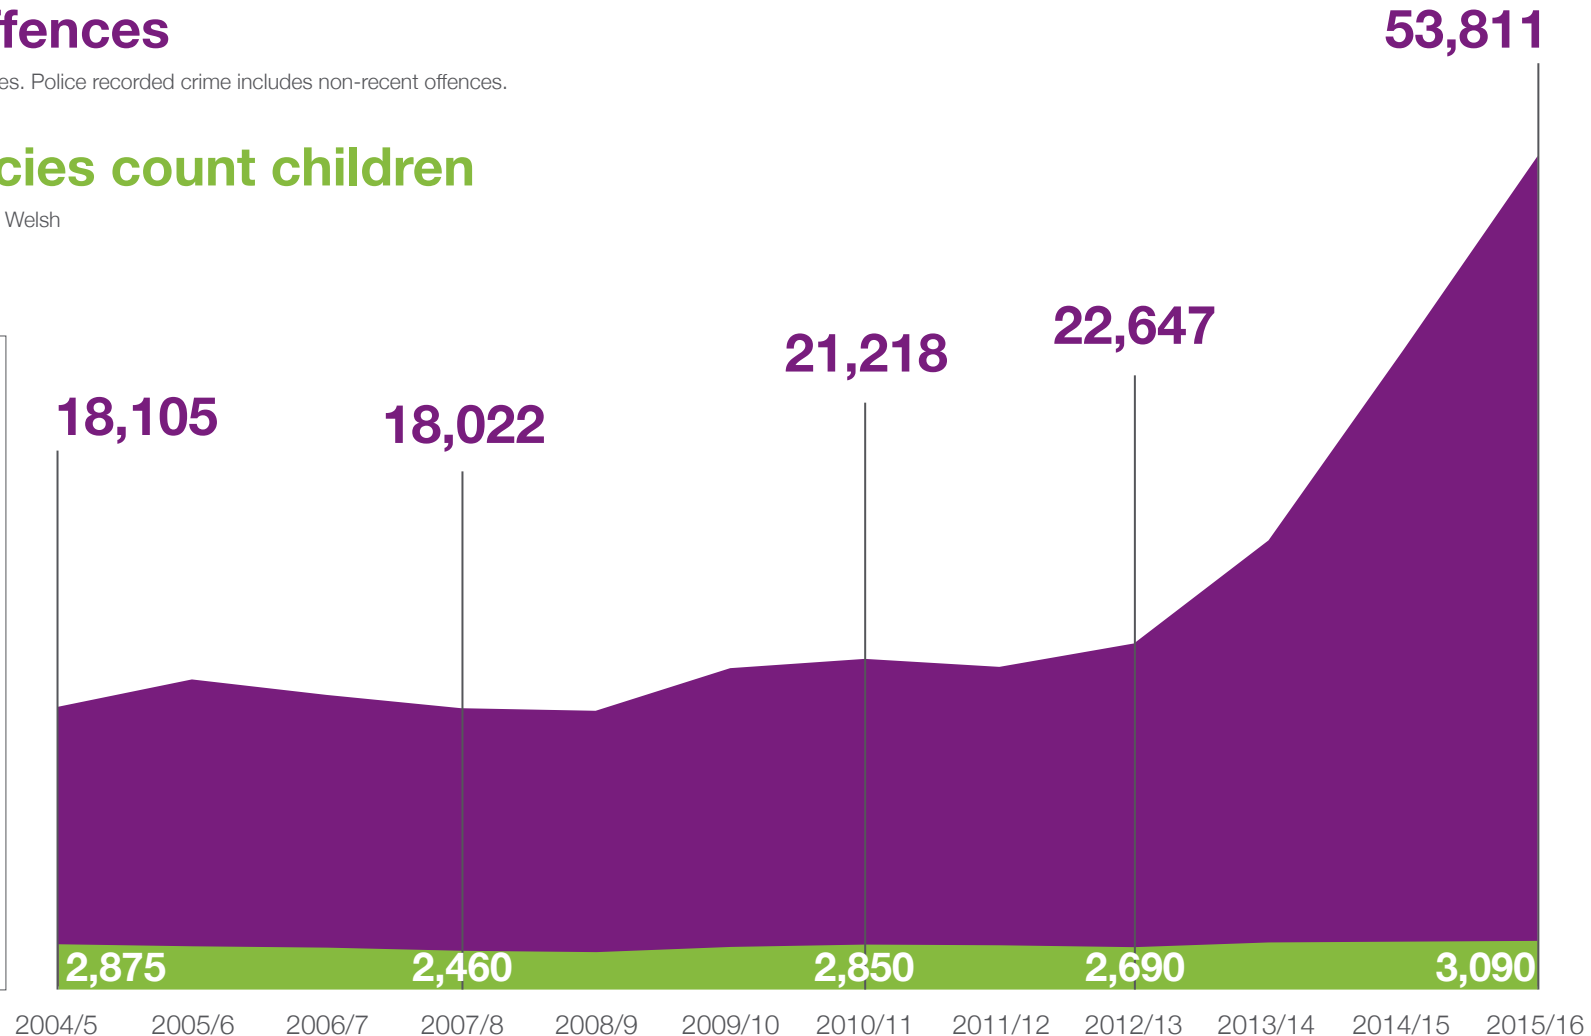

Source: Police recorded crime and outcomes open data tables. Police recorded crime includes non-recent offences.

Child protection agencies count children

Source: Department for Education, Children in Need census; Welsh Children in Need census

What do we not know?

- Why are the numbers of children on child protection plans for CSA stable but police recorded crime is significantly increasing?
- Non-recent cases accounted for 20% of all sexual offences recorded by the police in 2015/16 – but how much of the CSA recorded was non-recent?
- How many CSA victims report to the police?
- How much actual CSE is being dealt with by agencies?

4. What do we know about victims?

Source	No. of victims identified	Gender	Age	Ethnicity	What do we not know?
<p>Office of the Children's Commissioner's Inquiry</p> <p>Source: Office of the Children's Commissioner (2015) <i>Protecting children from harm</i></p>	<p>49,673 CSA victims</p>	<p>73% 27%</p>	<p>Girls Boys</p> <p>0-7 8-12 13+</p> <p>*age at time of report/discovery</p>	<p>White Black Asian Mixed Other Unknown</p>	<ul style="list-style-type: none"> Duration and frequency of abuse Relationship to perpetrator How many are CSE victims Ethnicity data in 30% of case
<p>Children's services in England</p> <p>Source: Department for Education Children in Need census, 2015/16</p>	<p>2,370 Children on child protection plans for sexual abuse, 2015/16</p>	<p>62% 37%</p>	<p>0-4 5-9 10-15 16+</p>	<p>White Black Asian Mixed Other Unknown</p>	<ul style="list-style-type: none"> Duration and frequency of abuse Relationship to perpetrator How many other victims are known to children's services but recorded under different abuse categories (only the primary concern can be recorded)
<p>Police recorded crime (CSE only)</p> <p>Source: National Police Chiefs' Council (2017) Regional CSE problem profiles, includes non-recent offences</p>	<p>8,995 CSE victims or at risk</p>	<p>88% 12%</p>	<p>14 Average age</p>	<p>White Black Asian Other Unknown</p>	<ul style="list-style-type: none"> Duration and frequency of abuse Relationship to perpetrator What proportion are at risk/actual CSE Detailed information about age Ethnicity data in 22% of cases

5. We know too little about perpetrators

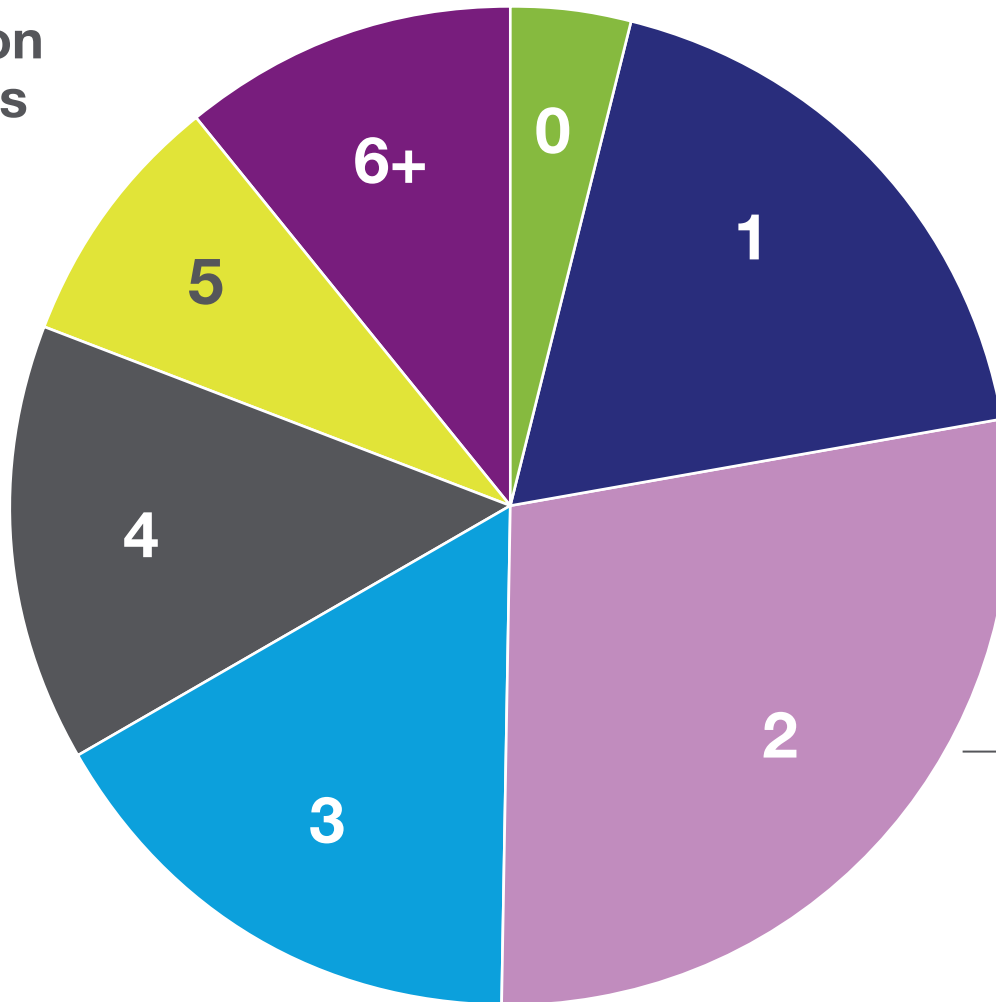

Source	No. of perpetrators identified	Gender	Age	Ethnicity	What do we not know?
<p>Office of the Children's Commissioner's Inquiry</p> <p>Source: Office of the Children's Commissioner (2015) <i>Protecting children from harm</i></p>	<p>34,241 perpetrators</p>	<p>Data not available</p>	<p>33% under 18</p> <p>67% over 18</p>	<p>Data not available</p>	<ul style="list-style-type: none"> • Gender or ethnicity of perpetrators • Perpetrators' relationship to victims • How many are CSE offenders
<p>Ministry of Justice</p> <p>Source: CJS Outcomes by Offence 2006 to 2016. Ministry of Justice, published May 2017.</p>	<p>9,270 defendants of CSA offences</p>	<p>98% 2%</p>	<p>6% under 18</p> <p>94% over 18</p>	<p>Data not available</p>	<ul style="list-style-type: none"> • Whether perpetrators are single, multiple or serial offenders • Ethnicity of perpetrators • Perpetrators' relationship to victims
<p>Police recorded crime (CSE only)</p> <p>Source: National Police Chiefs' Council (2017) Regional CSE problem profiles, includes non-recent offences</p>	<p>6,107 CSE offenders</p>	<p>93% 7%</p>	<p>26 average age</p>	<ul style="list-style-type: none"> • White • Black • Asian • Other • Unknown 	<ul style="list-style-type: none"> • Whether detected cases are representative • Missing data on ethnicity in 18% of cases • Whether CSE and CSA offenders are different

6. Regional variations: children on child protection plans for sexual abuse

Number of children on child protection plans (CPPs) for sexual abuse per 10,000 child population in different local authorities

Children on CPPs for sexual abuse*	Number of local authorities
0	5
1	22
2	34
3	20
4	17
5	10
6+	13

* per 10,000 child population

What do we not know?

We do not know if these variations reflect:

- different levels of abuse
- local recording practices
- local policy priorities
- resource allocation
- how safeguarding is organised

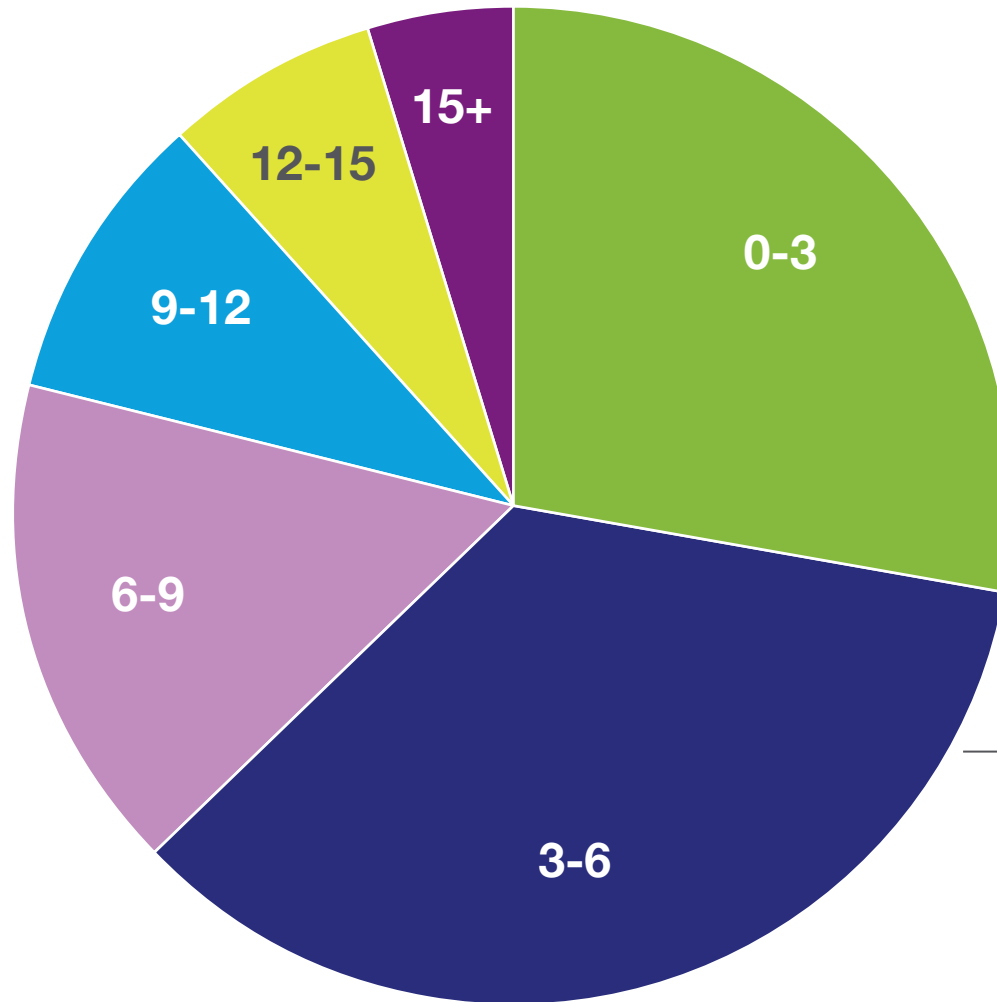

34 local authorities had 2 children on child protection plans for sexual abuse per 10,000 child population

7. Regional variations: CSA/E recorded crimes

Number of offences recorded per 1,000 child population in different police force areas, 2015/16

CSA/E offences recorded*	Number of police force areas
less than 3	12
3-6	15
6-9	7
9-12	4
12-15	3
15+	2

* per 1,000 child population

What do we not know?

We do not know if these variations reflect:

- different levels of abuse
- local recording practices
- local policing priorities
- resource allocation
- having specialist teams

3-6 CSA/E offences were recorded per 1,000 child population in 15 police force areas
